PROFESSIONAL SUMMARY

Results-driven Software Engineer with 4+ years of experience designing, developing, and deploying scalable web applications. Proficient in JavaScript, Python, and cloud technologies. Passionate about building efficient solutions and collaborating in agile teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, Java, SQL Frameworks: React, Node.js, Express, Django Databases: PostgreSQL, MongoDB, MySQL

Tools: Git, Docker, AWS, Jenkins, Jira

Other: REST APIs, Microservices, Unit Testing, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer Acme Corp, San Francisco, CA June 2021 – Present

Developed and maintained a React/Node.js web application serving 50,000+ monthly users. Led migration of legacy codebase to microservices architecture, reducing deployment times by 30%.

Integrated third-party APIs (Stripe, Twilio) to enhance product features.

Collaborated with cross-functional teams in an Agile environment to deliver new features bi-weekly.

Junior Software Engineer Tech Solutions Inc., San Jose, CA July 2019 – May 2021

Built RESTful APIs in Python (Django) for internal tools, improving data processing speed by 20%.

Wrote unit and integration tests, increasing code coverage from 60% to 90%.

Assisted in database design and optimization for high-traffic applications.

Participated in code reviews and mentored interns on best coding practices.

EDUCATION

B.S. in Computer Science University of California, Berkeley 2015 – 2019

PROJECTS

Personal Portfolio Website

Designed and deployed a responsive portfolio using React and AWS S3/CloudFront. Implemented contact form with serverless backend (AWS Lambda). Open Source Contributor – FreeCodeCamp

Fixed bugs and added features to curriculum platform (JavaScript, Node.js). CERTIFICATIONS

AWS Certified Developer – Associate (2023) Scrum Master Certified (2022) ADDITIONAL INFORMATION

Languages: English (native), Spanish (conversational) Volunteer: Code for Good Hackathon Mentor (2023)
